TACH Solution

| Innovate | Integrate | Improve |

About Us

TACH Solution realizes the importance of fully utilizing a corporation's resources, minimizing cost, ensuring efficiency as well as maximizing productivity levels. Thus TACH Solution continuously identifies various topics of interest and concern to the business community towards the achievement of immediate and long-term benefits.

TACH Solution believes successful companies are characterized by an unrelenting focus on their people and processes – the interrelated elements that directly impact the

production and business processes, TACH Solution can determine whether opportunities for performance improvement reside in people, processes or the combination of all two. TACH Solution creates solutions for the wide-ranging challenges our clients face today – and anticipate those they will face tomorrow.

achievement of an organization's performance, cost management, and compliance objectives.

By objectively analyzing your

Our Focus : People and Processes

PEOPLE

TACH Solution helps clients in enhancing the performance and productivity of their human resources by analyzing, designing, developing, implementing and evaluating effective training programs for all levels of employees

PROCESSES

TACH Solution has developed specialized and innovative techniques for the evaluation and improvement of our clients' business processes and procedures. Our people help clients benchmark critical processes and

re-engineer those in need of improvement

Our Vision

Through our expertise and close working relationship with our clients, we are able to offer a wide range of training and development programs that suit your requirements. We are also actively assisting our clients in coaching and outsourcing activities.

In achieving continuous expansion, increased productivity, high performance and competitive effectiveness, we believe in 3 I's

Innovate - key driver to business excellence

Integrate - key driver in putting everything in order, systematically

Improve - key driver in leading the market

Innovate - We provide innovative, breakthrough, out-of-the-box thinking style to assist clients in building new ideas and propose actions to assist in improving business and management strategies

Improve - We emphasize on continuous improvement activities and constantly work with our customers to develop a sustainable action on all projects

Integrate - We improve clients performance by integrating and bridging new improved methodologies with their current strategies

“Through our experiential workshops, participants are able to demonstrate their knowledge on the spot”

TACH Solution has carefully selected a team of people from various background in training to bring specific expertise to the organization. Our team works as a family regardless of who is the person is responsible for main day-to-day contact on a project. Each project is assured of concentrated and focused team participation drawing on

Our Strength

all the talents within the organization.

All our trainers / consultants come from a hands-on background, with extensive experience and knowledge to lead our customers in their respective areas of expertise.

Our Courses

The global challenges of business have led to significant changes in the marketplace. Investments in improved business processes, technology and training to accommodate a rapidly changing work environment are necessary to sustain the competitive edge. TACH Solution offers a wide range of services to help people adapt and embrace these changes while addressing human organizational, and technical issues to ensure a balance

strike in a company's success.

TACH Solution assists corporations in transforming their culture, improving leadership skills, maximizing human potential and ultimately, improving performance.

“Better Return on Training Investment (ROTI) through post-workshop projects and follow-ups consultations”

Our Selected Clients

We provide programs customization for better results.....

Standard Program Delivery

The existing manual will be used, and the program content will be similar to the regular open / public classes. Examples and exercises will be generic

Tailored Generic Course

The existing manual will be used without any changes, but the presentation will be tailored to the specific needs of the facility. A training specialist will visit your location to clarify course goals and objec-

tives for the training course and discuss tailored exercises that would be compatible with the generic course format.

Customized Specific Course

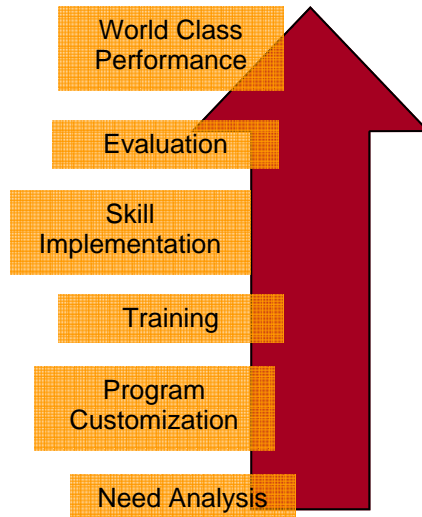

When appropriate, a customized specific course will consist of unique material containing information taken from the customer's plant system descriptions, technical manuals, and operating and maintenance procedures.

This information will be gathered by training specialists who will visit the location. The resulting course will be specific to both participant needs and the equipments which they must work with. Client blue prints, technical literature, or management policies and procedures will be used to emphasize 'on-the-job' situations and conditions.

Our Value-Added Approach

Combining our skills and hands-on experience, TACH Solution offers a unique approach in its service life cycle. Below is our “Building Blocks of Training / Consultation Services”

“We provide a full range of knowledge transfer till effective implementation”

The chart depicts the functions that make up the services that TACH Solution provides to our clients. The functions are presented as building blocks. Each service or block supports the ones above it. By providing each of the building blocks, TACH Solution act as a “Full Scope Training / Service Provider”.

Alignment / Customization / Delivery / Evaluation

TACH Solution’s life cycle development and experience provide our customers with the assurance that projects will be delivered on time and within budget. The key is the ability to provide the proper analysis that will align our customer’s training with their corporate goals.

TACH Solution constantly utilizes the *Kirkpatrick’s 4 Model of Evaluation* for improvement, and gives the option to our clients for a follow-up session for greater return on investment.

Most of the time, the level of change in participants is not measured after the training. TACH Solution provides optional periodical project follow-up sessions with the participants to ensure the utilization of the skills and knowledge acquired during a particular training session.

TACH Solution also enhances the skill and knowledge retention of the participants through power coaching sessions with individuals or selected small groups.
